

SIERRA[®]

DELUXE & DELUXE PLUS 1500 LB. TRAILER JACKS

Designed and built to stringent OEM specifications, the Sierra trailer jacks deliver the strength needed to hold your trailer's load when hitched or unhitched from your vehicle. Quickly pivots into a horizontal position for towing. Zinc plated undercoat, with a tough black textured overcoat provides maximum protection. Other features include 1500 lbs. capacity, 10" or 12" travel distance, and designed to fit tongues up to 3" x 5". Built-in grease fitting(s) allows for easy lubrication and eliminates the need to remove the cap. Mounting hardware included.

DELUXE & DELUXE PLUS TRAILER JACKS

Ideal for use with boat, sports craft, snowmobile and other recreational trailers.
